County Fire Station  
148808 Havasu Lake Road  
1st Saturday, 8 – 12

**HELENDALE, CA 92342**  
County Fire Station 4  
27089 Helendale Road  
2nd Saturday, 8 – 12

**LUCERNE VALLEY, CA 92356**  
Behind Fire Station  
33269 Old Woman Springs Rd.  
3rd Saturday, 9 – 12

## Conditionally Exempt Small Quantity Generator (CESQG) Program

This fee-based program is available for small businesses that generate a maximum of 27 gallons or 220 lbs. of hazardous waste or 2.2 lbs. of extremely hazardous waste per month. The CESQG Program is a hazardous waste disposal service for eligible businesses in San Bernardino County. Trained San Bernardino County Fire Department staff will assist you with the preparation, documentation, removal and disposal of your hazardous waste. **Call 1-800-OILY CAT to receive a copy of the brochure outlining the program and cost.**

- Fontana residents only, call City of Fontana (909) 350-6789
- Los Angeles County 1-888-253-2652

## Recycling Used Motor Oil and Oil Filters is the Right Thing to Do

- Dumping used oil (or any chemical) is a crime – legally and environmentally.
- Dumped oil contaminates ground water – our drinking water source.
- Used oil is insoluble and can contain toxic chemicals.
- Used oil kills plant and aquatic life.
- One pint of used oil can create an acre-sized oil slick on surface waters.

## Facts to Remember When Recycling Oil

- Drain your oil from cars, trucks, motorcycles, boats, recreational vehicles, lawnmowers, etc., into a reusable, sealable container. **Call 1-800-OILY CAT for free oil container availability.**
- Do not dump oil on the ground, in the gutter or storm drain, or throw in the trash.
- Do not mix anything with the oil (water, paint, pesticides, solvents, diesel, antifreeze or gasoline).

## Important Tips & Facts

- Household hazardous waste is any chemical-based material discarded from homes which may threaten human health or the environment when disposed of improperly.
- Always follow product label in regard to preparation, usage, ventilation, personal protection, clean up, storage, first aid and disposal.
- Read labels carefully: POISON means highly toxic and may also be flammable and corrosive. WARNING indicates a less severe hazard. CAUTION means less dangerous than WARNING.
- Store solvents in closed containers and away from heat or flame. Store all hazardous products away from the reach of children. Choose child-resistant packages.
- Never mix products together unless the label calls for it (for example, ammonia mixed with chlorine bleach form a poisonous gas).
- Store flammable, oxidizer and poisonous products each separately – do not store incompatible products together (i.e., acids with caustics or alkalines; or flammables with oxidizers).
- If you spill a hazardous chemical on yourself: Immediately wash the area well with water (do not use soap) and change clothes immediately. Wash clothes separately. Follow labeling directions and seek medical attention.

Always call a medical professional or the Drug and Poison Information Center for advice on poisoning at 1-800-222-1222. Know your Poison Control Center phone number.

## Waste Minimization is Pollution Prevention

- If you spill a chemical on the ground: Contain and cover the spill with an absorbent material (kitty litter, saw dust), sweep and scoop absorbent and container into a plastic bag, and take to a permanent household hazardous waste collection facility.
- Contact the Household Hazardous Waste Program at (909) 382-5401 or **1-800-OILY CAT** for large spills and proper disposal of explosive, radioactive or infectious materials.
- Buy only what you need, in the smallest amounts available. Use it all or share with neighbors.
- Choose "ready-to-use" products instead of more toxic concentrated products.
- Rinse the container, use the rinsed product from the container and recycle the empty container.
- Use broad spectrum products which work on more than one pest, e.g., boric acid kills both ants and roaches.
- Never dump hazardous products down the toilet, drain, on the ground or in the trash.

**ZERO-WASTE**  
you make it  
**HAPPEN!**

## Material Reuse

FREE Material Reuse Products available at the San Bernardino Household Hazardous Waste Collection Facility Monday through Friday, 1:00 p.m. to 3:30 p.m. Product availability not guaranteed.

## Reduce Your Waste By Using Safer Alternatives

- CLEANING: Use non-toxic/biodegradable soaps or baking soda.
- AUTOMOTIVE: Buy re-refined motor oil.
- HEALTH: Use pump-type sprays instead of aerosol sprays.
- GARDENING: For pest control, remove food/water sources, clear harborages, cover holes and drains, use mechanical or sticky traps.
- PAINTING: Use latex or water-based paints and stains.

**Buy less, use less & pollute less!**

## 15 Collection Facilities throughout San Bernardino County

**UPLAND, CA 91786**

Upland City Yard  
1370 North Benson  
Saturday, 9 - 2

**Also accepts e-waste and sharps**

County Fire Station 127  
83732 Trona Road  
2nd Saturday, 8 – 12

**Also accepts e-waste and sharps**

**VICTORVILLE, CA 92392**  
Victorville Fire Dept., S. B. County Fairgrounds  
East of Desert Knoll Drive on Loves Lane  
Wednesday & Sunday, 9 – 4

**Also accepts e-waste and sharps**

**1-800-OILY CAT**

## What We Accept

- household generated motor oil & oil filters
- paint products
- auto & household batteries
- antifreeze
- cooking oil
- pesticides
- fertilizers
- chemical cleaners
- pool supplies
- personal medications (excluding controlled substances; must separate solids and liquids)

## What We Do Not Accept

- business wastes — see CESQG, inside page
- explosives
- medical wastes
- radioactive wastes
- yard wastes
- appliances
- furniture
- tires
- reactives
- asbestos

## Transport Guidelines

Before transporting hazardous waste to a collection facility, be sure that:

- the amount of waste transported does not exceed 15 gallons or 125 lbs per visit in containers no larger than 5-gallon.
- the containers are sound, not leaking and sealed.
- the waste is in its original container or is properly labeled as to its contents.
- wastes are placed securely in the vehicle for safe transport.
- the contents of the container are the same as stated on the label. If not, cover up the label and write the name of its contents.
